

## Splash Hog Urinal Screen Solution

Good Morning, \_\_\_\_\_.

I just completed my weekly Sani-Service and if you have just a minute, would you like to inspect my work?

(NOTE: If manager/owner does not wish to visit restroom, proceed to narrative after step 6)

It is a 6-step process:

1. I maintain your air fresheners.
2. I manage and refill all your hand soap dispensers.
3. I clean or replace your urinal screens.
4. I use Blue Planet HIOX to clean, sanitize and disinfect the toilets, sinks and urinals.
5. I apply our Sani-Shield protective barrier to your toilet, sinks and urinals.
6. Finally, I apply our Sani-Guard process using an electrostatic sprayer.

In performing the service, we now offer a better urinal screen, called the Splash Hog. Part of my job is to look out for my customers; helping them improve the appearance within their facility by reducing odors, germs, bacteria, etc., while saving them money.

The Splash Hog is designed to drastically reduce splash back of urine from splashing on the floor which in turn reduces the tracking of urine out of the restroom into other parts of your facility.

Not only is the Splash Hog loaded with long lasting fragrance, lasting for weeks it ALSO is embedded with an enzymatic drain cleaner!

I will take care of them during the weekly Sani-Service and **ONLY** replace them when they need to be. It is only \$ \_\_\_\_\_ per Splash Hog, just pennies per day!! No more case purchases and inventory to store and providing a safer environment for employees and customers.

I have them with me and will add it to your invoice today, do you see any reason you wouldn't want to do this today?
