

Splash Hog Solution

Good Morning, _____.

Is _____ here or available, my name is _____ and I am the Operations Manager with Enviro-Master Services, we sanitize, disinfect and protect your restrooms!

Hello _____, I stopped in to perform a Quality Control check and see how our technician is doing:

- Do you know the day service is performed?
- Do you know your technicians name?
- How is the service going for you?

In performing the Quality Control check, I noticed that you are not using Enviro-Master's Splash Hog Urinal Screen as part of my job is to look out for my customers; helping them improve the appearance within their facility by reducing odors, germs, bacteria, etc., while saving them money.

The Splash Hog is designed to drastically reduce splash back of urine from splashing on the floor which in turn reduces the tracking of urine out of the restroom into other parts of your facility.

Not only is the Splash Hog loaded with long lasting fragrance, lasting for weeks it ALSO is embedded with an enzymatic drain cleaner!

Your Technician is trained to take care of them during the weekly Sani-Service and **ONLY** replace them when they need to be. It is only \$ _____ per Splash Hog, just pennies per day!! No more case purchases and inventory to store and providing a safer environment for employees and customers.

I have them with me and will add it to your invoice, do you see any reason you wouldn't want to do this today?
