

Surefoot EZ Solution

Good morning, _____.

Is _____ here or available, my name is _____ and I am the Operations Manager with Enviro-Master Services, we sanitize, disinfect, and protect your restrooms!

Hello _____, I stopped in to perform a Quality Control check and see how our technician is doing:

- Do you know the day service is provided?
- Do you know your technicians name?
- How is the service going for you?

Part of my job is to look out for my customers; helping them improve the appearance within their facility by reducing odors, germs, bacteria, while saving them money.

While I was checking the soap dispensers in the kitchen, I noticed the floors were slippery and hard to walk on which makes me ask what product is currently being used? You could be spending more money than you should.

Surefoot EZ floor cleaner is new generations foaming cleaner and degreaser designed for quarry tile. It will:

- Save you money, as our product is 1oz per gallon per a competitors 2oz's per gallon
- Enzyme based product
- Reduces odors
- Reduces slippage from the fats, oils, and grease that build-up on your floors
- Plus, it does not contain any harsh caustics.

I can sell you individual gallons or by the case. The technician will always check to make sure you have stock and ONLY sell you what you need.

I will explain to you or your kitchen staff how to use the product so there is no more wasting money, provide a chart on how to use product, all while saving you money and keeping staff safe!

Do you see any reason you would not want me to do this today?
